25X1A

Preparatory Flight School in the spring of 1952. The foundations were already dug and appeared very large and deep. The area contained large piles of iron rods of approximately three centimeter gauge approximately 15 m. long, also large piles of sacked cement, bricks, and other building material. A sign bore the words "Stavba AZNP" (Construction of the AZNP).

#7. Entrance gate; Steel mesh, approximately six meters wide and four meters high with a sign attached to the gate reading "AZNP".
